

SAMKIT INFOSYSTEMS DATASHEET

Configuration Extract

Extract Oracle ERP Cloud configuration data instantly

Manually retrieving configuration values from Oracle ERP Cloud can be time-consuming and complex. Configuration Extract simplifies the process and extracts configuration data quickly and accurately with just a few clicks.

- Extract complete Oracle ERP Cloud configuration
- Covers all key modules and setup areas
- Export to structured Excel or CSV formats
- Ideal for documentation, review, and auditing
- Saves hours compared to manual extraction
